

NORTH WEST CARDIO-DIAGNOSTICS REQUIRES:

Diagnostic Cardiac Sonographer Medicine Hat, Alberta

Medicine Hat, known for being the sunniest city in Canada, is located in southeastern Alberta with a population of approximately 65 000. Echo Dale Regional Park and Elk Water Ski Resort are both great options for numerous outdoor activities. Medicine Hat also has over 102 kilometers of biking and hiking trails throughout the city.

Medicine Hat offers a unique quality of living with City owned electric and gas utilities. This has allowed citizens to enjoy low utility costs and tax rates for many years. As a cardiac sonographer living in Medicine Hat you will have the option of having both a fulfilling career and the freedom to enjoy life's pleasures.

Job Overview:

- A fast paced progressive cardiac tele-echo private laboratory with GE equipment inside the Medicine Hat Regional Hospital.

Education/Qualifications:

- Graduate of a formal government accredited Diagnostic Sonography Program
- Sonography Canada qualified with at least one year experience is preferred.
- Pediatric qualification not necessary but must be willing to learn

Skills and Abilities:

- Evaluate sonograms in order to acquire appropriate diagnostic information.
- Integrate diagnostic sonograms, patient history and medical records, and adapt sonographic examination as necessary.
- Communicate effectively with the patient and the health care team, recognizing the special nature of sonographic examinations and patient's needs.
- Establish and maintain effective working relationships with the public, health care team, co-workers and hospital.
- Follow established departmental procedures.
- Work efficiently and cope with emergency situations.
- Ability to travel to Calgary several times per year

Salary and Benefits:

- Remuneration - defined by agreement and experience.
- SunLife medical/dental
- Company RRSP matching
- 5 weeks holiday
